The Sign of  
*Italy*

Born from the heritage and the pioneering know-how in high-end furniture of *Ghuzlan International Group*, Eletti Design is the new luxury furniture brand that aims to offer the knowledge, the passion and the craftsman attitude of “Made in Italy” design together with a production proudly made in the Emirates.

Materials and fabrics are the result of a careful and precise research for quality and are chosen from among the Italian excellences, as is the design.

The key formula of Eletti Design’s identity is the search for detail, the use of linear and natural shapes and wraparound colors to provide a dreamlike vision of living.

The Sign of  
*Nature*

The touch of nature, strong and elegant at the same time, inspires and shapes the brand new Home Collection of Eletti Design.

Materials, colors, and textures are designed in a perfect harmony to convey a sense of comfort, beauty and solace to the home and its spatial composition.

NIGHT

*A name that evokes the innate elegance and glow of the Italian Alps.*

## DOLOMITE

bedroom

The collection stems from the desire to combine sinuous shapes with linear geometries, creating enveloping structures that allow you to experience the harmony of the environment.

Speaking of soft, free-flowing curves, we connected with the design philosophy of one of the greatest avant-garde architects on the Brazilian scene: Oscar Niemeyer, who liked to talk about his architecture like this:

“I am not attracted to straight angles or to the hard and inflexible straight line created by man. I am attracted to free-flowing, sensual curves. The curves that I find in the mountains of my country, in the sinuousness of its rivers, in the waves of the ocean, and on the body of the beloved woman. Curves make up the entire Universe” (Oscar Niemeyer). Hence the choice of the name Dolomite - a praise for the creativity and sensitivity of this artist and a praise for our mountains with their soft angles.

## PAGES: 10 TO 17

Bed. Headboard with cushions and padded base in Leather G103 04 Ivory, Headboard Multiply wood covered in layer of Betulla Flamed veneer, Stainless steel feet.

Night table. Structure in multiply wood covered in layer of Oak Gray veneer. Top with Travertine Grey, Drawers in paint.

Vanity. Structure in multiply wood covered in layer of Betulla Flamed veneer. Top Painted with hide leather C103 04 Ivory insert, Drawers in paint.

Armchair. Structure in multiply wood covered in layer of Betulla Flamed veneer. Seat cushion with Leather G103 04 Ivory.

Mirror. Structure in multiply wood covered in layer of Betulla Flamed veneer, Drawers in paint, Silver mirror.

Bench. Structure in multiply wood covered in layer of Betulla Flamed veneer. Seat cushion with Leather G103 04 Ivory.

Pouf. Structure in multiply wood covered in layer of Betulla Flamed veneer. Seat cushion with Leather G103 04 Ivory.

*A name that evokes the moon and the dreamlike limbo of the night.*

# ECLIPSE

bedroom

This collection also sees the desire to combine sinuous, fluid forms with more linear shapes that blend perfectly with the environment without creating spatial imbalances.

Paying homage to Zaha Hadid, we quote one of her recurring phrases: "Life is not made in a grid. If you think of a natural landscape, it's not even and regular – but people go to these places and think they are very pleasant and relaxing. I think that one can do that in architecture, in our cities." We humbly join her, adding... We must not forget to do this also in the furnishings that bring life to our homes by enhancing their essence, hence the name Eclipse, which for us means the form and its space.

DAY

*A name that expresses the feeling of well-being, cosiness and relaxation of a living area.*

# OASIS

living

Lovers of relaxation, lovers of harmony, lovers of well-being, lovers of experiencing everyday life in a user-friendly way. Oasis is a place, a moment, a pleasant situation, a natural nucleus in its materials and spontaneous in its forms, to experience a situation of extreme well-being in everyday life. In this study, we used the most appropriate language to represent the research path behind it. It was a study of materials and their spatial configuration: the important thing for us was to be able to fully express the poetics of thought and communicate it to those who would use the space for which the elements were designed.

*The desire to interpret space with versatility and harmony.*

# HORIZON

dining

Living area furniture that becomes longer, conceals its content, displays it.... A desire to create a mini collection where part of the whole could be seen or concealed at will, where modules build the spatial dimension. Furniture designed to ensure lightness and compositional versatility. The finishes envisaged provide two possible aesthetic interpretations: the version with glass doors and glossy and matt lacquered glass drawers that allows you to explore the exceptional variety of combinations and, alternatively, the version with equipment in natural finishes and satin-finish lacquers. The desire to interpret space with versatility and harmony.

# JOUD

Dining

Elevate your dining experience with the EleganceCraft Joud Dining Table, a masterpiece of precision and elegance. Meticulously crafted, it seamlessly blends minimalist aesthetics with high-quality materials, making it the perfect addition to any modern living space. Featuring sleek and sturdy metal legs, it offers both durability and a contemporary look. What truly sets it apart is the recessed marble top, adding a touch of luxury and refinement to your dining area. The smooth surface creates a visual focal point, while a variety of finishes allow for customization to suit your personal taste and seamlessly integrate with your existing décor. Experience sophistication and functionality with the EleganceCraft Joud Dining Table.

PAGES: 100 TO 103

Joud table. Structure in ash wood, Top in Sahar Noir marble.

Harmony chair. Cover finish in Fabric Arco 03 Ash, Base in Ash Black wood.
