THE SIGN OF

Elegance, Materiality and Evolution

Showroom in Abu Dhabi

There are signs that speak without words.

A silhouette. A surface. A pause in the light.

In 2025, ElettiDesign enters a new chapter, one shaped by deep material richness, sculptural calm, and an unwavering devotion to proportion.

This collection is the sign of who we are becoming: bold in form, quiet in presence, precise in every detail.

From refined marbles to structured wood grains, from supple leathers to architectural volumes, each piece is designed to express more than function, it expresses intention.

It is our way of turning space into emotion, and furniture into language.

This catalogue is not just a presentation of products.

It is the sign of a mindset.

The sign of timeless craft, lived experience, and the subtle luxury of restraint.

And, with the opening of our new showroom, it is also the sign of a place, where all these elements come together in physical harmony.

Welcome to ElettiDesign 2025.

The sign of what's next.
